In order to work Chicago games we had to commit to 10 games in addition to the Chicago games so we are signed up for 14 games. We will need a minimum of 10 workers per event and will be assigned on a first come first serve basis. These work events require a fair amount of work and time, but they are also a lot of fun. They are a great way to make money for your student's accounts without asking your friends for money!
